DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35

U.S.C. 121:

- I. Claims 1-20, drawn to process of making a fiberglass wall covering, classified in class 427, subclass 178.
- II. Claims 21,22, drawn to glass fiber rolled good, classified in class 442, subclass 65.

2. The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as process of making and product made.

The inventions are distinct if either or both of the following can be shown:

(1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another

Art Unit: 1771

and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process which would involve microwave drying step instead of air drying or contact drying step in the claimed process.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1771

7 Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John J. Guarriello whose telephone number is 703-308-3209. The examiner can normally be reached on Monday to Friday from 8 am to 4 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris, can be reached on (703) 308-2414. The fax phone number for the organization where this application or proceeding is assigned is 703-305-5408.
